

Press Release September 28, 2016

## **Final tunnel breakthrough – 37 km of tunnels completed**

A major milestone was achieved today, with the final tunnel breakthrough.. More than 37 km of tunnels have been completed in just 28 months, including the world's third longest headrace tunnel of more than 17 km.

A great tribute to all involved in this major milestone in the project. The project construction risk is now substantially reduced says CEO of Clean Energy Invest Bjorn Brandtzaeg.
